## ABOUT

I am a Fullstack Developer focusing on website and mobile application development. I have experience in solving complex problems in the technology field, I enjoy the challenges that come from both work and freelance projects that I participate in.

Previously, I worked as a Software Engineer at ASTECH Technology, I was involved in various large projects, including government projects for the Ministry of Health (KEMENKES), the Financial and Development Supervisory Agency (BPKP), the Ministry of Environment and Forestry (KLHK), PAMJAYA, and the Indonesian National Police Traffic Corps (Korlantas Polri).

## **HOBBIES AND INTERESTS**

In my free time, I indulge in a variety of hobbies that keep me both mentally and physically active. As a passionate gamer, I enjoy immersing myself in different gaming genres that challenge my strategic thinking and problem-solving skills. I am also an avid hiker, always looking for new trails and outdoor adventures, which help me stay connected with nature while maintaining physical fitness.

Coding is more than just a profession for me—it's a creative outlet. I often spend time exploring new technologies and building personal projects. In addition, I have a deep appreciation for martial arts, where I practice discipline, focus, and self-defense techniques.

Lastly, I have a keen interest in photo and video editing, allowing me to express my creativity through visual storytelling and enhancing multimedia content with design techniques.
